Investment Objective

The Southern Charter BCI Balanced Fund of Funds is a moderate managed fund of funds. The primary investment objective of the portfolio is to provide the investor with a moderate total return. The Fund aims to provide investors with capital growth above inflation over the longer term by investing in a combination of asset classes including local and international equities, fixed interest, property and cash. As the Fund has a medium allocation growth assets, it is ideal for investors with a medium investment horizon, who seek capital growth and who are at least 5 - 10 years from retirement. The fund is Regulation 28 compliant.

Strategy

The Fund is actively managed with a value bias. By focusing on macro themes, the Fund looks to exploit valuation discrepancies in asset classes when they occur. The allocation to equities will range from 40% to 60%, depending on economic conditions with neutral weighting of 55%. The balance is allocated to the other asset classes. The allocation to assets other than equities, aims to reduce the risk of capital loss in the portfolio.
